

A STUDY INCLUDING CAREGIVER'S FOR INDIVIDUALS WITH DEMENTIA

ARE YOU:

- aged 18 years or older AND
- an active driver (i.e., drive at least once per week) AND
- caring for a person with a formal diagnosis of dementia AND
- caring for a person with a dementia who regularly travels in a motor vehicle with you AND
- able to read and comprehend the English language AND
- currently living in Canada?

WE WANT TO HEAR FROM YOU!

The purpose of this study is to assess caregiver's attitudes towards using automated vehicles and rideshare services to enhance the mobility of their care recipients with dementia.

If you are interested, please use this link to access the survey:

<https://bit.ly/3ooswuS>

Your participation involves engagement in a 30-minute online survey!
